**NEW PRODUCTS**  
We have lots of new products to introduce, look out for the new logo across our pages.

**MATERIAL GAUGE**  
with a choice of 0.6, 0.7, 0.8 & 0.9 to choose from.

**MINIMUM CABINET SIZE**  
Sink options available to suit 450, 500, 600, 800 & 1000 cabinet widths.

**REVERSIBLE INSTALLATION**  
Sink can be fitted with a left-hand or right-hand drainer option.

**10 YEAR WARRANTY**  
All stainless steel sinks include a 10 year warranty.

**5 YEAR WARRANTY**  
All taps include a 5 year warranty.

# OUR PRODUCTS

## KITCHEN SINKS

Leisure Sinks is the largest manufacturer of kitchen sinks in the UK. With over 90 years' experience and a reputation for excellence, we're able to offer a wide range of high quality sinks and taps for you to choose from.

## KITCHEN TAPS

Our taps are compatible with all water pressure system types, including low pressure tank systems. A wide variety of designs are available for different project types, including a selection of functionalities and finishes to suit any kitchen.

## SINK AND TAP PACKS

We offer a wide range of sink and tap pack combinations, which include all parts required for installation. All sink and tap packs also include a WRAS approved tap for peace of mind.

## WASTE KITS

We offer an extensive range of basket strainer and plug wastes, all compatible with British standard pipework and compatible with our sinks.

## ACCESSORIES

Enhance your sink area with a selection of sink accessories. We offer a variety of draining baskets and strainer bowls designs to complement your stainless steel sink.

## WASTE DISPOSAL UNITS

Complete your sink with the addition of a waste disposal unit, which are compatible with a selection of our sinks. Our range of waste disposal units fit neatly underneath the sink to safely and hygienically dispose of food waste.

# ENGINEERING EXCELLENCE SINCE 1933

## NO. 1 UK MANUFACTURER

AGA Rangemaster are the largest manufacturer of kitchen sinks in the UK. With over 90 years experience and a reputation for excellence, we're able to offer a wide range of high quality sinks and taps for you to choose from.

We are experts in metal presswork, and at our manufacturing site we offer full and semi automated mass production pressing. This is supported with complete in-house services from CAD design to tool making.

Leisure Sinks come in a variety of styles to complement your lifestyle perfectly and come with a 10 year guarantee.

## QUALITY YOU CAN TRUST

As a responsible manufacturer and supplier of high-quality domestic sinks, all of our sinks carry a CE & UKCA certification mark which comply with the BS EN 13310 standard.

To emphasise the importance placed on quality, a number of models in the Leisure Sinks range have been awarded the BSI Kitemark in recognition of their high specification manufacture and finish. Audited to the highest manufacturing standards, Leisure Sinks remain the only sink manufacturer to be awarded this accolade.

The majority of Leisure Sinks kitchen taps have undergone extensive testing at an independent laboratory and are awarded with WRAS approval certification, fully complying with the highest standards set out by the UK's water regulations board, meeting UK water byelaws.

In addition, all products meet the exacting criteria set out by several international standards, including ISO 14001, which signifies excellent environmental management systems, and ISO 9001, which recognises fully integrated quality management systems.

Our stainless steel sinks are proudly manufactured in the heart of the Midlands, in Long Eaton, Nottingham

LN95/, TSWSL1CM/

Stainless steel remains the most popular material choice when choosing a kitchen sink due to its hard wearing and long-lasting properties.

Here at Leisure Sinks, we only use food grade 304 18/10 stainless steel, with gauges between 0.6 and 0.9 to create our products.

'18/10' refers to the chromium (18%) nickel (10%) content in the material, which provides the high level of stain, corrosion and rust resistance it has become renowned for.

It also ensures a natural, abiding high-sheen finish, perfect for modern design schemes. Plus, there is the heightened longevity factor, with stainless steel products designed to last for years, if not decades; making these sinks popular with builders, developers and specifiers.

Choose a granite sink from our small but broad appeal range, delivering modern colour and practicality with bowl size options.

The Leisure Sinks Nova collection brings out the best technical qualities of granite, including resistance against heat, scratches and stains and easy cleaning.

## GRANITE

Constructed from innovative, patented material, this formulation has been perfected to give your granite sink a tactile texture and consistent finish.

## KEY FEATURES

**HYGIENIC SURFACE**

**ANTI-IMPACT**

**ANTI-SHOCK**

**ANTI UV**

**LEISURE SINKS BRANDED**

# GRANITE SINKS

NOV1052BL/, TAQSTONESLBL/

# NOVA

Nova combines style with functionality; the drainer with defined straight lines creates a contemporary look, and its generous bowl sizes provide ample room to wash large pots and pans. If kitchen space is restricted, a compact version is also available within the range.

Constructed from 80% quartz – the toughest element of granite, and high-grade acrylic, the Nova range offers a robust solution for one of the busiest areas in the kitchen space.

CLOX3216WH/

CERAMIC SINKS

The kitchen sink is one of the most used items of your kitchen so why not add a statement piece to enhance the overall look of your space?

With the addition of a fire-clay ceramic sink you are guaranteed a sink which will retain its high gloss colour and shine for its lifetime.

## KEY FEATURES

### EASY CLEAN SURFACE

Our fire-clay ceramic sinks are easy to clean, thanks to their smooth glazed surface, as microbes and stains just wipe away.

### SUPERIOR STRENGTH

Thanks to the high gloss glazed finish, our ceramic sinks are highly resistant to heat, stains and scratches.

CLOX4040WH/

**BROAD FINISH OFFERING**  
Choice of 6 colours available, including 3 new granite colours.

**SUSTAINABILITY**  
Fully sustainable packaging, manufactured from 60% recycled materials and 100% recyclable.

**FUNCTIONALITY**  
With a broad professional style offering.

**DESIGN EXCELLENCE**  
Technical improvements & design updates have been made to our best-selling models.

KEY FEATURES

**ANTI-SPLASH SPOUT**  
The spout features a honeycomb aerator design which mixes air with water to emit a soft 'champagne like' water flow with no splash.

**MEDIUM PRESSURE**  
Some of our taps require plumbing systems with a higher bar pressure of 0.5 bar onwards, look for the 'M' symbol opposite against these types of taps.

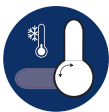

**PULL-OUT HOSE**  
For ultimate food preparation and cleaning results choose a tap with a pull out hose. The majority of our designs feature a retractable hose which sits discreetly within the tap not altering its appearance from a standard tap.

**HIGH PRESSURE**  
Taps with a 'H' symbol will require a plumbing system with 1.0 bar or higher when installing.

**WATER PRESSURE**  
The flow of water is determined from the water pressure available in your home, identifying the type of plumbing system already installed will help you choose a tap to suit your water pressure.

**COLD START**  
An intuitive design and significant energy saver, reducing CO2 emissions into the atmosphere and retaining cash in your pocket.

**ALL PRESSURE**  
The majority of our taps have been designed to work with all plumbing systems, including low pressure hot water tanks. Look for the 'A' symbol opposite across our range which highlights compatibility with all water systems from 0.2 bar onwards.

**FILTER**  
Delivers crystal clear, clean water thanks to the high quality carbon filter.

**AQUANOMIC**  
Aquanomic taps have been developed to reduce water consumption by restricting the flow of water to 5 litres per minute, whilst maintaining good water pressure.

NOV1051BL/, TAQSPIRITPOMB/

# AQUASPIRIT 1933 TAP

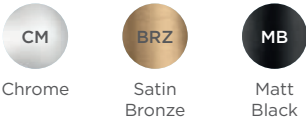

Our new Leisure branded tap inspired by 1930's industrial era, with mottled body stamping and traditional finishes to suit an array of kitchen sink styles and finishes. Choose the AquaSpirit with pull out function for ultimate food preparation and cleaning results.

## AQUASPIRIT PULL-OUT DUAL LEVER

Min. Pressure	0.5 bar
Overall Height	400mm
Spout Reach	216mm
Hose length	250mm

# AQUANOMIC TAPS

5  
YEAR  
WARRANTY

Fitted with a flow restrictor, the Aquanomic taps have been developed to help comply with the water category of the code by restricting the flow rate to 5 litres per minute per tap. The amount of water usage in the home is monitored and by using an Aquanomic tap, will help comply with these regulations.

All of our Aquanomic Taps are also available as Standard by removing the flow restrictor.

# RAPID-FIT PLUMB KIT

## NEW TELESCOPIC SPACE-SAVING SOLUTION

Reduced installation time by 75%

### Key Features:

- **Quick fix installation** – pre-assembled, reducing installation time for installers, and eliminates installation errors.
- **Water-Tight Fittings** – no risk for water leaks when installed.
- **Space Saving** – compact design allows homeowners to utilise more space underneath the sink when installed.
- **Adjustable** – the double bowl option can be adapted so that it is compatible with 1.5 bowl sinks as well as double bowl sinks suiting different waste configurations.

## WASTE DISPOSAL UNITS

Clean, hygienic and safe to use, our waste disposal units are easy to install and compatible with most of our sinks, all of which include the following features:

- **Bio Shield Antimicrobial Protection** – a hygienic agent which inhibits the growth of a wide range of micro organisms and provides protection against odours.
- **Turntable Operation** – no knives or blades are used thanks to the turntable included which uses generated centrifugal force to hurl waste against the grinding ring which shreds the waste into fine pieces.
- **Torque Master** – a balanced grinding system which provides superior torque speed with less vibration and noise, providing a longer life system.
- **Sound Shell** – protected with an outer shell which reduces noise levels when the waste disposal unit is in operation.
- **Continuous Feed Function** – mains operated controlled by a switch.

Leisure continuously seeks improvements in specification, design and production of products and thus, alternations take place periodically. Whilst every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specification, nor does it constitute an offer for the sale of any particular product.

## RANGEMASTER<sup>®</sup>

### SINKS & TAPS

Providing solutions for  
*every* installation

## MORE OPTIONS AVAILABLE WITH RANGEMASTER

Our sister brand, Rangemaster, offers an even wider portfolio of products designed to fulfil any project type and complement any style of kitchen scheme.

A wide selection of Granite, Fire-Clay Ceramic, Stainless Steel & PVD kitchen sinks are available in a variety of designs, sizes and colourways. Finish your sink with a Rangemaster tap, our comprehensive range of kitchen taps are available in multiple design types and finishes, providing ample choice to select from.
